Summary

Web developer with solid experience in **HTML5, CSS, Bootstrap, JavaScript, jQuery and PHP**, and practical knowledge of **Laravel** and **CodeIgniter**. Comfortable working on both front-end and back-end tasks and familiar with **Vue.js, React, Tailwind CSS, C#, and VB.NET**. Regularly use open-source tools like **Composer** and the **NPM** package manager. Eager to continue learning new technologies and contribute to well-built, user-friendly web applications.

Core Skills

- **Languages:** HTML5, CSS, JavaScript, PHP, C#, VB.NET
- **Frameworks & Libraries:** Laravel, CodeIgniter, Bootstrap, jQuery, Vue.js, React, Tailwind CSS
- **Tools & Platforms:** Git, Composer, NPM, Laravel WebSockets, GitHub/GitLab/Bitbucket
- **Other:** REST API development, Responsive UI/UX, Leaflet.js, Basic SEO, Cross-browser compatibility, Google OAuth integration

Professional Experience

Web Developer – Manalo K9 Technologies International Corp. | 2022 – 2025

- Develop and maintain dynamic web applications using Laravel and CodeIgniter.
- Implement responsive and accessible front-end interfaces with HTML5, CSS, and JavaScript.
- Optimize backend logic and database performance for scalability and reliability.
- **Use Git for version control and participate in collaborative code reviews.**

Freelance Web Developer – Wercher Solutions and Resources Labor Service Coop Antipolo City, Philippines | 2021

- Assisted in development of PHP-based websites and internal tools.
 - Provided maintenance, bug fixes, and feature enhancements for client projects.
